

## Barrel Clamps

Known as "Barrel Clamp", this particular hydraulic accessory is actually utilized on forklifts in order to squeeze items which you want to transport using the lift truck. Normally, they're utilized so as to handle kegs, paper rolls and barrels, along with a few barrel clamp designs having the ability to rotate the load. For example, the revolving function allows a forklift operator to be able to insert a vertically stored paper inside the horizontal intake of a printing press.
